SECOND REQUEST FOR RECONSIDERATION

Sir:

This is in response to the Decision dated September 16, 2008 wherein it is indicated that "the required records are records showing where all applications having the same or similar dates for response are docketed for response" and "the required docket record is a listing of all applications being prosecuted by Applicants' counsel, with responses due on (or around) 14 August 2006."

Accordingly, Applicants submit herewith a "Patent Actions Due Report" which is a listing of all matters due in August 2006 which would have been received by Assignee, Freudenberg-NOK General Partnership (Exhibit A). Also attached is a docket from Applicants' counsel, Harness, Dickey & Pierce, P.L.C., listing all matters due in August 2006 for Freudenberg-NOK General Partnership (Exhibit B). (It is noted that in 2006, Harness, Dickey & Pierce kept a separate docket on matters for Freudenberg-NOK General Partnership for matters forwarded to Harness, Dickey & Pierce by Freudenberg-NOK General Partnership for response.) Both reports show that no actions were due on or around August 14, 2006 for Serial No. 10/567,296. The

attached documents, along with the previously submitted "Statement" signed by Christine M. Reyes that included a printout of docketing system records showing where the non-received Notification would have been entered if the Notification had been received, clearly establish that Applicants did not receive the Notification of Missing Requirements dated June 14, 2006.

Therefore, Applicants request that the Request for Reconsideration be granted, and that the abandoned status be removed in light of the documents submitted herewith and the petition fee paid on December 21, 2007.

If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,

Dated: November 14, 2008
